

THE ASPEN INTERNATIONAL MOUNTAIN FOUNDATION (AIMF) IS AN ORGANIZATION DEDICATED TO PRESERVING A SUSTAINABLE AND HEALTHY MOUNTAIN ENVIRONMENT.

The focus of the organization is to foster world peace by creating opportunities for people to promote sustainable development in the world's mountain communities.

The first environmental forum hosted by AIMF was convened in 1995 in Aspen's sister city, Shimukappu, Japan. Other forums have been held in Aspen and Chamonix, France.

AIMF activities center around the following three areas with the emphasis on strengthening like-minded organizations by helping them work together.

CONVENING NATIONAL AND INTERNATIONAL FORUMS to address issues that affect mountain communities;

HOSTING ANNUAL EVENTS THAT CELEBRATE MOUNTAIN COMMUNITIES and raise awareness for issues affecting mountain environments;

MANAGING AND PROVIDING TECHNICAL ASSISTANCE FOR PROJECTS in select mountain communities that address sustainable development issues.
